Clean Storm 32043, 3/8" MIP x 1/2" Hose Barb Brass 90° Elbow Forged, 32-043

Model Number: 32043

Clean Storm 32043, 3/8" MIP x 1/2" Hose Barb Brass 90° Elbow Forged, 32-043

Manufacturer: Clean Storm

Clean Storm 32043, 3/8" MIP x 1/2" Hose Barb Brass 90° Elbow Forged, 32-043

Description

The Clean Storm 32043 is a heavy-duty forged brass 90-degree elbow fitting designed for reliable, leak-free directional transitions in fluid and air lines. Featuring a 3/8" Male NPTF connection on one end and a 1/2" Hose Barb on the other, this fitting provides maximum flow efficiency and long-lasting durability in demanding applications. Ideal for high-pressure washing systems, industrial hose setups, and pneumatic systems. Take advantage of our Buy More, Save More tier pricing on bulk orders!

Key Features

- **Forged Brass Construction:** Crafted from high-strength CA377 brass for enhanced structural integrity and resistance to mechanical stress compared to cast alternatives.
- **90-Degree Precision Elbow:** Perfect for routing hose lines through tight spaces and around sharp corners without causing hose kinks or flow restriction.
- **Secure Connection:** Threaded 3/8" Male NPTF end matches standard tapered pipe threads, while the barbed end ensures a snug grip when paired with standard hose clamps, crimped ferrules, or similar clamps.
- **Extreme Operating Range:** Built to withstand harsh commercial environments with superior temperature resilience and up to 150 PSI maximum working pressure.

Product Specifications

Part Number / SKU
32-043 (32043)

Fitting Type
90°; Forged Hose Barb Elbow

Thread Size & Type
3/8" Male NPTF (MIP)

Parts & Accessories > Brass, Plastic, Steel, Stainless Hydraulic Fittings > Brass Fitting > Threaded X Barbed > Clean Storm 32043, 3/8" MIP x 1/2" Hose Barb Brass 90° Elbow Forged, 32-043

Clean Storm 32043, 3/8" MIP x 1/2" Hose Barb Brass 90° Elbow Forged, 32-043

Hose Connection
1/2" ID Hose Barb

Material
Forged CA377 Brass

Max Working Pressure
150 PSI

Temperature Range
-40°F to +160°F

Dimensional Tolerance
+/- .02 on all dimensions

Recommended Fastener
Hose clamp, similar clamp, or crimped ferrule
