Description

The Clean Storm 32566 Brass Ferrule is a high-quality, durable crimp fitting designed specifically for securing 3/8" ID pressure washer and fluid transfer hoses. Crafted from heavy-duty brass, this ferrule features a 0.656" inner diameter, 1-inch length, and a 0.025" wall thickness with a 0.437" pierce hole. Engineered to deliver a precise, leak-free crimp connection, it provides superior resistance to corrosion and wear under demanding commercial and industrial conditions.

Features

- Durable Brass Construction: Engineered from high-strength brass for maximum durability and corrosion resistance.
- Precision Fit: Designed with a 0.656" inner diameter to perfectly match standard 3/8" ID hose configurations.
- Secure Hose Crimp: 0.437" pierce design ensures a solid, long-lasting grip and uniform pressure distribution.
- Versatile Application: Ideal for pressure washing, air lines, and industrial fluid connection maintenance and repairs.
