Clean Storm 32574, Brass Ferrule, .775in OD x .5in L x .02in Wall, for 3/8in ID Hose

Model Number: 32574

Clean Storm 32574, Brass Ferrule, .775in OD x .5in L x .02in Wall, for 3/8in ID Hose

Manufacturer: Clean Storm

Clean Storm 32574, Brass Ferrule, .775in OD x .5in L x .02in Wall, for 3/8in ID Hose

Overview

The Clean Storm 32574 Brass Ferrule is a durable, precision-engineered fitting designed to ensure a tight, secure crimp connection on 3/8" Inner Diameter (ID) hoses. Constructed from high-grade brass, this .02 gauge short ferrule provides excellent corrosion resistance and optimal pressure retention for air, water, and chemical lines.

Key Features

- Durable Brass Construction: Offers reliable strength and resistance to corrosion in various pressure-washing and fluid handling applications.
- Precise Fit: Specifically engineered for standard 3/8" ID hoses with a .775" outer diameter fit.
- Secure Crimp Seal: Compact .5" short ferrule design with .02" gauge wall thickness for consistent, leak-free crimp termination.
- Versatile Compatibility: Ideal for commercial cleaning equipment, high-pressure washers, and industrial hose assemblies.
