10in Semi-pneumatic

Auto Dump

10.5 GPM

Product Description

The Sniper Flood Pumper is innovatively designed to maximize efficiency and is ideal for extracting water from carpet, floors or any location subjected to water damage. 24-gallon capacity, rotationally-molded polyethylene body. An internal filter system provides the highest efficiency filtration without having to worry about external attachments. Powerful 3-stage vacuum motors and dual diaphragm bilge pumps allow wastewater to be recovered at 10.5 GPM. The auto pump-out feature works continuously, automatically dumping water, so tanks do not have to be emptied when full. Convenient waist-high controls make operation easy with no bending or lifting. Non-skid, non-marking 10-inch wheels for easy stair climbing.

Features:

- 13 Amps per cord.
- Dual 3-Stage Vacuum Motors
- 10.5 GPM Dual Pumping System With Electronic Overflow Protection
- Warranty: 90 days. Optional Extended warrant adds 2 years parts, labor and on site service for 5% more.

Includes:

- (1) 25 ft. Safety Power Cord
- (1) 25 ft. Vacuum Hose
- (1) 25 ft. Auto Dump Hose

The best thing about the Clean Storm Carpet Extractor that makes it unique from other Carpet Extractors is the fact that it is a much lighter machine. You will find this 24

>

gallon machine easy to move with its size and weight but You'll find it packs a punch when it comes to its cleaning power. This Carpet Machine comes with a 20 gallon waste tank. It has dual 3 stage vacuums and 10 gpm Auto dump.

This Item is Machine Only.
See Model # 12-6000.

Mytee 7001DX Flood Hog has:

Dual 3 stage vacuum motors

70 gallon per min auto dump (twice the size as others)

Dual power cords

Built in stainless steel Link Hog lint filtration with easy open lid and clean out.

Over 200 CFM

25 ft vacuum hose

Plastic suction pick up wand with dual lips: Carpet head and squeegee hard surface head.

Each power cord operates each of the two three stage vacuum motors.

Machine can operate on one power cord with one vacuum motor because of the vacuum check valve system inside the waste tank

144" of vacuum lift

2" port on lint filter allow for use with either 2" or 1-1/2" ID vacuum hose.

Auto dump is a masive 70 gallon per min and discharges water from a 1-1/2" barbed port.

Included second 2" vacuum port to convert to a vacuum booster that can still be used as a stand alone machine. This port will allow you to hook a second machine to this machine so this machine will increase the air flow, cfm, water lift and work as an auto dump and lint filtration machine for both.

This is a great upgrade for customer that already own an standard carpet cleaning extractor and want to have enough power to leave the machine outside, to have non stop cleaning performance for restaurant cleaning and tile cleaning, and heavy duty water extraction.

This is a great option for cleaners that want to help stay in water disposal compliance because this machine will pump the water to the sewer clean out in the fron of most homes.
