Manufacturer: Clean Storm

Clean Storm AB113, Stainless Steel Grout Brush for Tile Cleaning, 5 Inch, 1662-2971

Description

Meet our most aggressive grout brush yet! Every once in a while, a tool comes along that makes your job so much easier you wonder how you ever lived without it—this is one of those tools. The Clean Storm AB113 stainless steel grout brush easily cleans up stains you either thought were permanent or required harsh chemicals to remove.

Paint? No problem. It will cut right through it without damaging the grout. Embedded oil and grease? After a few strokes, the tile and grout will look like new. The stainless steel bristles are stiff enough to dig deep into the pores of grout and scrub out dirt, yet soft and pliant enough that they do not damage or tear out grout lines. Plus, because the stainless steel bristles won't rust, you never have to worry about leaving orange stains behind, and the brush head cleans up effortlessly after use.

Features

- Heavy-Duty Stainless Steel Bristles: Stronger and more durable than standard plastic bristles, fitting uniformly into grout channels.
- Tile & Stone Safe: Tough on stubborn dirt, grease, and paint without damaging stone or ceramic tiles when used wet.
- Standard Handle Compatibility: Easily connects to any standard threaded handle for extended reach.
- Replaceable Head: Brush head can be quickly replaced once bristles eventually wear out.
- Rust-Proof Design: Stainless steel construction prevents rust formation and orange staining on light grout.
- Fast & Easy Operation: Simply wet grout with cleaner, scrub, and rinse.

Caution & Usage Tips:

- Do not use on dry grout, as this may remove a thin layer of grout material. Always keep tile and grout wet while scrubbing.
- Rinse the brush head thoroughly with clean water after each use to remove residual chemicals.
- If the brush creates black marks during scrubbing, keep the tile and grout wet until you mop or extract. These marks are easy to remove.
