Clean Storm AH71, 1.5in Barbed x 2.0in Barbed, Polymer Vacuum Hose Reducer Connector, 579-016

Model Number: AH71

Clean Storm AH71, 1.5in Barbed x 2.0in Barbed, Polymer Vacuum Hose Reducer Connector, 579-016

Manufacturer: Clean Storm

Clean Storm AH71, 1.5in Barbed x 2.0in Barbed, Polymer Vacuum Hose Reducer Connector

Description

Connect and enlarge vacuum hoses seamlessly with the Clean Storm AH71 1.5in barbed x 2.0in barbed polymer hose connector, designed for maximum durability in carpet extraction.

Features

- Connects 2.0-inch vacuum hoses to 1.5-inch vacuum hoses efficiently for optimal airflow management.
- Securely slips cuffs over engineered hose barbs on each end to prevent slippage during operation.
- Constructed from heavy-duty, indestructible polymer material built to withstand rigorous daily commercial use.
- Corrosion-proof and impact-resistant body ensures long-lasting performance in wet extraction environments.

Applications

- Carpet cleaning truckmount systems and portable extractor setups.
- Commercial and residential vacuum hose extension and reduction lines.
- Water restoration and flood extraction equipment configurations.
- General industrial vacuum and fluid recovery hose networks.

Specifications

Brand
Clean Storm

Model / Part Number
AH71

Primary Material
Heavy-Duty Indestructible Polymer

Steambrite Supply

Clean Storm AH71, 1.5in Barbed x 2.0in Barbed, Polymer Vacuum Hose Reducer Connector, 579-016

End Type 1
1.5-Inch Hose Barb

End Type 2
2.0-Inch Hose Barb

Application
Vacuum Hose Enlarger / Reducer Adapter

Color
Black / Standard Polymer

Tips and Additional Information
Ensure vacuum hose cuffs slide fully past the barb ridges on both ends to create an airtight seal and prevent suction loss during heavy extraction jobs. Inspect the

polymer barbs regularly for wear or debris buildup before each use. Avoid using excessive heat directly on the connector to maintain structural integrity.

Frequently Asked Questions

Q: What sizes does this hose connector bridge?

A: This adapter connects a standard 2.0-inch vacuum hose down to a 1.5-inch vacuum hose (or functions in reverse as an enlarger).

Q: Do I need hose clamps with these barbs?

A: Standard vacuum hose cuffs typically grip securely over the molded barbs on their own, but threaded or spring cuffs can be paired for extra security.

Q: Is the polymer material resistant to chemical cleaning agents?

A: Yes, the heavy-duty polymer construction is highly resistant to standard truckmount chemicals, carpet detergents, and wastewater.

Warranty & Safety Information

Covered by Clean Storm against manufacturer defects in materials and workmanship under normal operating conditions. Warranty is voided if the part is damaged due to excessive mechanical crushing, vehicular run-over, modification of the hose barbs, or exposure to unauthorized corrosive solvents that degrade polymer integrity.
