Reducing Street Brass Elbow 3/8 Fip X 1/4 Mip Forged 28263

If you’re upgrading from a 204v, 205V, or 207V pump head to a 217V pump head, you’ll need to add up to four brass adapters.

The 204v, 205V/207V models all use 3/8" water ports, while the 217V is designed with 1/4" ports.

Water connections on the above discontinued pumps all faced to the rear/towards the motor. The 217V faces to the side so the 28263 90 degree reducing elbows are the most likely adapters you will need.
