NEMA 5-20R GFCI Receptacle Outlet with Led White 20 amp 120 volt GP-DG20WWB

Model Number: GLEV8899W

NEMA 5-20R GFCI Receptacle Outlet with Led White 20 amp 120 volt GP-DG20WWB

Manufacturer: -

NEMA 5-20R GFCI Receptacle Outlet with Led White 20 amp 120 volt

General Protecht DG20-WW-B Description

The Class A Rated White 20-Amp GFCI (Ground Fault Circuit Interrupter) duplex outlet provides electrical shock protection and prevents the risk of electrical fire caused by ground fault current. This GFCI has a built in end-of-life feature which automatically alerts the user that the receptacle is no longer effective and needs to be replaced. The 20-Amp GFCI receptacle can be easily installed in a typical wall switch box for both residential and commercial applications. Wall Plate is Included. The duplex GFCI exceeds UL943 (2008) & cUL943 (2008) technical requirements.

White 20 Amp 125V GFCI duplex receptacle
Exceeds UL943 (2008) & cUL943 (2008) technical requirements
Wall Plate is Included
Automatic end-of-life detection and warn functions, when GFCI fails, the red signal lamp will auto-warn to remind user to replace
Can sustain up to a 6000 V & 10000 Amp current impulse instantaneously
Prevents Line reversal miss-wire: GFCI cannot be reset and no power to the outlet if wired incorrectly
Made of GE LEXAN 24IR High-impact resistant thermoplastic which is resistant to shock, heat, corruption and moisture
Works reliably at temperatures from -31 to 151 Fahrenheit
Safe-lock design, assured fixed state while tripped
Wiring screw provides improved tension disc construction, making 10#-14#AWF copper wire reliable connection
Adapted duplex outlet faceplate, load terminal can load common receptacle and other home appliances which also have ground fault protect functions
Overload and anti-jamming abilities
Provides permanent electro-magnetic motion
Green grounding screw as grounding connector for easy installation and recognition
UL & cUL Listed
