Clean Storm 20151106, 7-Gang Wall Plate, White Metal Cover for Decora, GFCI Switches

Manufacturer: Clean Storm

Clean Storm 20151106, 7-Gang Wall Plate, White Metal Cover for Decora, GFCI Switches

Description

Upgrade and clean up heavy-duty electrical setups with the Clean Storm 20151106 7-Gang Decora Wall Plate. Engineered for multi-switch banks, industrial control centers, and high-density commercial electrical installations, this wall plate delivers a seamless fit across seven gang openings. Constructed from durable metal with a clean white powder-coated finish, it provides superior impact resistance and protection against wear compared to standard plastic plates. Ideal for commercial, industrial, and high-traffic residential switch panels requiring a polished, long-lasting enclosure.

Features

• 7-Gang Decora Configuration: Accommodates up to seven side-by-side Decora, GFCI, rocker switches, or block style outlets.
• Heavy-Duty Metal Construction: Premium metal material prevents cracking, warping, and bowing under heavy use or uneven wall mounting.
• Protective White Powder Coat: Smooth, clean white finish resists corrosion, scratches, and everyday scuffs for long-lasting aesthetics.
• Commercial & Industrial Grade: Designed for demanding environments like equipment control boards, commercial buildings, workshops, and utility rooms.
• Flush & Precise Fit: Standard dimensioning ensures clean lines and easy alignment over multi-gang junction boxes.

Specifications

Brand	Clean Storm

Clean Storm 20151106, 7-Gang Wall Plate, White Metal Cover for Decora, GFCI Switches

Part / Model Number
20151106
