Clean Storm 20151118 VacuWhip 33ft Air Duct Dryer Vent Cleaning Package HEPA Vacuum Puma 18.5CFM Honda Compressor Fogger

Model Number: 20151118

Clean Storm 20151118 VacuWhip 33ft Air Duct Dryer Vent Cleaning Package HEPA Vacuum Puma 18.5CFM Honda Compressor Fogger

Manufacturer: Clean Storm

Clean Storm 20151118 Vacu-Whip Air Duct & Dryer Vent Cleaning Package
Steam-Brite Package Number: 20151118
Vacu-Whip Length: 33 Feet Standard
Air Compressor: Puma PUK-8008HGE
Compressor Output: 18.5 CFM @ 90 PSI
Compressor Engine: Honda GX240 8 HP Gasoline
Compressor Tank: 8 Gallon Twin Tank
Vacuum: Clean Storm Triple-Motor HEPA Wet/Dry Vacuum
Air Supply Hose: 100 Feet, 3/8 Inch ID
Fogger: FGI Smith AS40 / 190695W ULV Cold Fogger
COMPLETE PROFESSIONAL PNEUMATIC AIR DUCT AND DRYER VENT CLEANING PACKAGE WITH 33-FOOT VACU-WHIP, HIGH-AIRFLOW HEPA VACUUM, 18.5 CFM HONDA GAS AIR COMPRESSOR, CLEANING HEADS, 100-FOOT AIR HOSE, ULV FOGGER AND CHEMICAL STARTER PACKAGE.
The Clean Storm 20151118 Vacu-Whip Air Duct Cleaning Package combines the major equipment needed to begin professional HVAC air duct and dryer vent cleaning into one coordinated package. The system combines compressed-air agitation with vacuum collection to loosen and remove dust, lint and debris from residential and commercial ductwork.
At the heart of the package is the 33-foot Clean Storm Vacu-Whip. An internal pneumatic hose supplies compressed air to interchangeable cleaning heads while the surrounding 2-inch vacuum hose simultaneously collects loosened debris. This allows the technician to agitate and vacuum ductwork during the same cleaning process.
18.5 CFM Puma Honda Air Compressor
Air volume is extremely important when operating pneumatic duct-cleaning tools. A small compressor may produce adequate pressure initially but can require repeated pauses while its storage tank recovers.
The Vacu-Whip can operate with compressors producing approximately 6 CFM, but approximately 12 CFM or greater is recommended for continuous professional cleaning.
This package includes the Puma PUK-8008HGE commercial gasoline-powered air compressor, producing approximately 18.5 CFM at 90 PSI. This provides substantially more airflow than the minimum recommended for the Vacu-Whip and helps reduce compressor recovery delays during continuous duct cleaning.
The Puma PUK-8008HGE features an 8 HP Honda GX240 commercial gasoline engine, 8-gallon twin tanks, belt-driven cast-iron compressor pump, electric start and a 100% duty-cycle design.
Important: The Puma electric-start system does not include the starting battery or

Clean Storm 20151118 VacuWhip 33ft Air Duct Dryer Vent Cleaning Package HEPA Vacuum Puma 18.5CFM Honda Compressor Fogger

battery cable. These must be supplied separately if electric-start operation is desired.
Simultaneous Duct Agitation and Vacuum Collection
Unlike an air-only skipper-line system, the Clean Storm Vacu-Whip places the pneumatic cleaning line inside the 2-inch vacuum hose. Compressed air powers the cleaning attachment at the end of the hose while the vacuum hose collects loosened contaminants immediately around the cleaning area.
The internal line is constructed using lightweight, flexible hose selected to provide enough stiffness to help advance the Vacu-Whip through ductwork while keeping the complete assembly manageable for the technician.
Package Includes

- Clean Storm 20151133 Vacu-Whip - 33-foot standard configuration
- Clean Storm Triple-Motor HEPA Wet/Dry Vacuum
- Puma PUK-8008HGE Gas Air Compressor - 18.5 CFM @ 90 PSI
- Honda GX240 8 HP commercial gasoline engine
- Heat Seal SS16LP Octopus Predator - 14-inch, 8-tentacle low-pressure whip
- Heat Seal 28-inch Octopus Predator Whip for larger ductwork
- Heat Seal SS18 Scorpion Spinning Brush - approximately 4 to 6 inches
- Heat Seal SSFB Flexible Duct Ball
- 100-foot 3/8-inch ID air hose with 1/4-inch MIP ends
- Air-hose quick disconnect fittings
- 1.5-inch to 2-inch vacuum hose adapter cuff
- Standard 1.5-inch vacuum hose cuff
- FGI Smith AS40 / 190695W ULV Cold Fogger
- Clean Storm Air Duct Cleaning Chemical Starter Package
- Clean Storm DustDowner AH20
- Shazaam Extra-Large 30 x 40 Inch Hose Bag

33-Foot Vacu-Whip Assembly
The standard package includes approximately 33 feet of 2-inch professional vacuum hose with the pneumatic line installed inside the hose.
The assembly uses a PMF 2-inch Hide-A-Hose swivel cuff modified to allow the internal air line to transition from inside the vacuum hose to the external compressor connection.
At the cleaning end, the Vacu-Whip incorporates a quick-disconnect connection that allows compatible cleaning heads to be changed as job conditions require.
Optional 50-foot and 100-foot Vacu-Whip configurations are available from the product options when additional reach is required.
Multiple Cleaning Heads for Different Duct Conditions
Different duct systems require different agitation methods, which is why this package includes several cleaning attachments rather than relying on a single nozzle.

- SS16LP Octopus Predator: Flexible 8-tentacle whip for general duct agitation.
- 28-Inch Octopus Predator: Larger whip for increased coverage inside larger

Clean Storm 20151118 VacuWhip 33ft Air Duct Dryer Vent Cleaning Package HEPA Vacuum Puma 18.5CFM Honda Compressor Fogger

ductwork.
• SS18 Scorpion Spinning Brush: Useful for mechanically agitating heavier deposits and stubborn dryer-vent lint.
• SSFB Flexible Duct Ball: Helps position compatible cleaning attachments inside flexible duct.

Triple-Motor HEPA Vacuum Collection
The included Clean Storm HEPA vacuum provides the negative-air collection source for the Vacu-Whip system. Its triple-motor configuration supplies considerably more airflow than a typical household or small shop vacuum and allows loosened duct debris to be collected while pneumatic agitation is taking place.
The package includes the adapters needed to transition between the Vacu-Whip's 2-inch connection and the vacuum's standard accessory configuration.
ULV Fogger and Chemical Starter Package
An FGI Smith ULV cold fogger and Clean Storm air-duct chemical starter package are also included for contractors who offer compatible post-cleaning treatment applications.
Always follow the chemical manufacturer's label directions, application instructions, personal-protective-equipment requirements and all applicable federal, state and local regulations when applying any product inside an HVAC system.
Designed for Professional Mobile Duct Cleaning
Because the included Puma compressor is powered by a Honda gasoline engine, the compressor does not consume electrical capacity inside the customer's building. The technician can position the compressor outdoors and run the included 100-foot air hose to the work area.
This can be particularly useful when working in homes, apartments and commercial buildings where available electrical circuits are already being used by the HEPA vacuum and other equipment.
Puma PUK-8008HGE Compressor Specifications

• 18.5 CFM @ 90 PSI
• 20 CFM @ 40 PSI
• 135 PSI maximum pressure
• 105 / 135 PSI operating pressure range
• Honda GX240 commercial gasoline engine
• 8 HP
• Electric start
• 8-gallon twin portable tank configuration
• Single-stage compressor
• Three-cylinder radial-type cast-iron pump
• Belt-drive construction
• 100% duty cycle
• Heavy-duty regulator
• Two quick-connect outlets

Clean Storm 20151118 VacuWhip 33ft Air Duct Dryer Vent Cleaning Package HEPA Vacuum Puma 18.5CFM Honda Compressor Fogger

- Wheelbarrow-style portable frame

Battery Notice: Starting battery and battery cable are not supplied with the Puma PUK-8008HGE.
Typical Applications

- Residential HVAC air duct cleaning
- Commercial air duct cleaning
- Supply and return duct cleaning
- Dryer vent cleaning
- Flexible duct cleaning
- Pneumatic duct-whip cleaning
- Air-compressor-powered duct agitation
- Professional HVAC cleaning service start-ups

Why Choose the Clean Storm 20151118 Package?
The advantage of this package is that the major components have been selected around the airflow requirements of pneumatic duct cleaning. Rather than pairing the Vacu-Whip with a marginal small compressor, the package supplies an 18.5 CFM @ 90 PSI Puma commercial compressor capable of comfortably exceeding the Vacu-Whip's approximately 12 CFM continuous-cleaning recommendation. Combined with the triple-motor HEPA vacuum, interchangeable agitation tools, 100-foot compressor hose, ULV fogger and duct-cleaning accessories, the Clean Storm 20151118 provides a practical starting platform for contractors adding air duct and dryer vent cleaning services to their business.
Note: Package components and colors may vary according to current manufacturer production. Equipment is supplied according to the listed manufacturer and part numbers. Gasoline-powered equipment must only be operated outdoors in accordance with manufacturer instructions because of carbon-monoxide and exhaust hazards.

Clean Storm Vacu-Whip Air Duct Cleaning Attachment 33 ft with all starter bundled accessories
Save over purchasing individually!

Package Includes each of the items below:

Clean Storm 20151118 VacuWhip 33ft Air Duct Dryer Vent Cleaning Package HEPA Vacuum Puma 18.5CFM Honda Compressor Fogger

Clean Storm 20151118 VacuWhip 33ft Air Duct Dryer Vent Cleaning Package HEPA Vacuum Puma 18.5CFM Honda Compressor Fogger

Designed to work with your shop vac, portable carpet cleaning machine, truckmount and air compressor (electric or gasoline)
Like all air duct cleaning tools: they will work with as low as 6 cfm but we recommend 12+ cfm compressor.
If you use with a 6 cfm compressor, you will have to wait for the air compressor to catch up with you during use.
When you use with a 18+ cfm air compressor, you do not have to wait on the compressor to catch up as 18.5 cfm offers non stop duct cleaning.

Standard length is 33 ft
Optional 50 ft and 100 ft available.

Optional:

Clean Storm 20230809 Air Duct Cleaners Basic 60 Gallon Air Compressor Starter Bundle 13.1 CFM Dual 120 Volts 16 Amps
No gasoline needed.
