Manufacturer: Chemspec

Chemspec Formula 90 with Biosolv Original Traffic Lane Cleaner - 40 lb Pail
Chemspec C-PF90BK Formula 90 with Biosolv is a professional powdered carpet prespray and traffic lane cleaner designed for heavily soiled carpet, commercial walkways, rental properties, restaurants, offices, apartments, and high-use residential areas.

This economical powder concentrate is formulated to loosen heavy soil before hot water extraction. It is low foaming, contains corrosion inhibitors to help protect extraction equipment, and is boosted with Biosolv for extra cleaning performance.
Product Highlights

- Part Number: 91965011927 / C-PF90BK / 104959
- Size: 40 lb pail
- Form: Powder concentrate
- Use: Carpet prespray, traffic lane cleaner, preconditioning chemical
- RTU pH: Approximately 10.62
- Best For: Heavy soil, grease, oil, and high-traffic carpet areas
- Application: Portable extractors, pump-up sprayers, inline sprayers, and truckmount systems

Why Use Formula 90 with Biosolv?

- Excellent choice for heavy traffic lanes and neglected carpet
- Powdered concentrate provides strong value per mixed gallon
- Low-foaming formula helps reduce recovery tank foam problems
- Corrosion inhibitors help protect carpet cleaning equipment
- Works as a prespray before hot water extraction cleaning

Mixing Directions

Application Method	
Recommended Dilution	
Notes	
	Portable Extraction Machine

Legend Brands 104959 Chemspec C-PF90BK, Formula 90 Biosolv, Original Traffic Lane Cleaner 40 lbs Pail 104959 91965011927

Mix 2 scoops / 2 oz. per 5 gallons of water
Use warm water when possible for better dissolving.

Truckmount Prespray Jug
Mix 1.5 lbs. per 5 gallons of water
Fill container half full with warm water, add powder slowly, then finish filling.

Heavy Soil Areas
Apply as prespray and allow proper dwell time
Agitate traffic lanes when needed before extraction.

Recommended Use Procedure

- Pre-vacuum carpet to remove dry soil.
- Mix Formula 90 with warm water until fully dissolved.
- Apply evenly to traffic lanes and heavily soiled areas.
- Allow proper dwell time, but do not allow carpet to dry before extraction.
- Agitate heavily soiled areas with a carpet rake, CRB, or rotary scrubber if needed.
- Extract thoroughly with hot water extraction equipment.

Common Applications

- Apartment turns and rental property carpet cleaning
- Restaurants and greasy commercial carpet
- Office traffic lanes and hallways
- Hotel, motel, and hospitality carpet maintenance
- Residential carpet with oily soil buildup
- Professional carpet cleaning truckmount and portable extractor use

Important Notes

- Always test carpet for colorfastness before use.
- Follow all label and SDS safety instructions.
- Use proper PPE when mixing or applying cleaning chemicals.
- Do not mix with incompatible chemicals.
- Product images are for reference only. Orders are fulfilled by the part number listed.

FAQ
Is this a ready-to-use carpet cleaner?

Steambrite Supply

Legend Brands 104959 Chemspec C-PF90BK, Formula 90 Biosolv, Original Traffic Lane Cleaner 40 lbs Pail 104959 91965011927

No. This is a powdered concentrate that must be mixed with water before use.
Can this be used with a truckmount?
Yes. Formula 90 with Biosolv is commonly used as a prespray with truckmount carpet cleaning systems.
Is this the same as a rinse detergent?
No. This product is primarily used as a prespray or traffic lane cleaner before extraction.
What type of soil is it best for?
It is best for heavy traffic soil, oily soil, grease, and neglected carpet areas.
Why buy the 40 lb pail?
The 40 lb pail is usually the best value for professional cleaners who use prespray regularly.
Chemspec C-PF90BK Formula 90 with Biosolv Original Traffic Lane Cleaner 40 lbs Pail 104959 SKU 91965011927

A Specially Formulated Pre-Spray Concentrate For Hard To Clean Carpet Areas.

Still the Best .... Even After 20 Years! Over the years, no single product has consistently performed better than our Original Traffic Lane Cleaner. As new technology is developed, we have continued to refine our original formulation to bring you the best heavy soil-loosening and labor-saving pre-spray available.
Dilution for a portable extraction machine:

Mix 2 scoops (2 oz. / 57 g) per 5 gal. (18.9 L) of water.

Dilution for Truckmounts:
For best results:

Mix 1½ lbs. (680 g) per 5 gal. (18.9 L) of water.
1. Fill container ½ full with warm water.
2. Slowly add 1½ lbs. (680 g) of product and warm water simultaneously until container reaches 5 gal. (18.9 L).
3. Stir mixture 2-3 minutes or until powder is dissolved.

Product Description
Economical powdered formulation outcleans competitive products on all carpet types.
Low-foaming formulation includes corrosion inhibitors to protect extraction equipment.
Boosted with Biosolv for extra cleaning power.
