Clean Storm 32062, 1/4in Fip X 3/16in Barbed Brass, 32-062

Manufacturer: Clean Storm

Clean Storm 32062 Brass Hose Adapter - 1/4" FPT x 3/16" Barb

Description

The Clean Storm 32062 Brass Hose Adapter is a heavy-duty, reliable fitting designed to seamlessly connect 3/16" inside diameter (ID) tubing or hose to a 1/4" male pipe thread connection. Built with high-quality brass construction, this adapter offers exceptional durability and corrosion resistance, making it ideal for industrial, commercial, and heavy-duty fluid transfer applications.

Featuring a standard Female National Pipe Thread (FPT/NPT), the tapered thread design ensures a tight, leak-free seal when paired with Teflon tape or thread sealant. Ensure a firm, leak-proof hose attachment by securing the barbed end with standard hose clamps or Oetiker clamps.

Features

- Heavy-Duty Brass Construction: Solid brass build provides long-lasting strength, durability, and resistance to wear and corrosion.
- Precision Barbed End: Designed to fit securely inside 3/16" Inside Diameter (ID) tubing and hoses.
- Tapered Pipe Thread: 1/4" Female Pipe Thread (FPT / NPT) creates a reliable, tight seal when used with Teflon tape or thread lubricant.
- Versatile Clamping Options: Can be easily secured using Oetiker clamps, worm gear hose clamps, or crimp collars.

Specifications

Brand / Manufacturer
Clean Storm

Parts & Accessories > Brass, Plastic, Steel, Stainless Hydraulic Fittings > Brass Fitting > Threaded X Barbed > Clean Storm 32062, 1/4in Fip X 3/16in Barbed Brass, 32-062

Clean Storm 32062, 1/4in Fip X 3/16in Barbed Brass, 32-062

Part Number (MPN)
32062 / 32-062

Connection Type A
1/4 in. Female Pipe Thread (FPT / FNPT)

Connection Type B
3/16 in. Hose Barb

Hose Fitment (ID)
3/16 in. Inside Diameter Tube or Hose

Fitting Style
Straight Hose Adapter

Material
Heavy-Duty Brass

Recommended Clamps
Oetiker Clamps or Standard Hose Clamps
