Solo 456HD Chemical Resistant 2 Gal Plastic Sprayer Pump Up with Viton Seals

Good things come in small packages. An example is the HP90 Spyder™ automotive detail extractor. Basically, a smaller version of Mytee’s® HP120 Grand Prix™. While the Grand Prix™ features two 10-gallon capacity tanks, the Spyder™ contains two 5-gallon tanks. But do not be fooled by its size. Built smaller for your convenience, the HP90 Spyder™ has the same amount of cleaning power and detailing ability as its large sibling.
The design of both units transformed the auto detailing industry and has been copied by companies throughout the world. When our automotive extractors debuted in 1997, Mytee® offered the first heated extractor with a single power cord. Previously, extractors that used a pump, vacuum and heater required two power cords, making it hard to find a power source. But Mytee’s® trailblazing design changed all that, and the rest is history.
Other trendsetting features include:

Performance – Using our exclusive REAL HEAT™ system, the 1,200-watt in-line heater with maximum 210Ëš temperature produces hot water that quickly breaks up grease and dirt. The single 3-stage LA (low amp) motor makes the extractor even more effective.
Has 130″ of water lift, 100 CFM.
Comes with a 1.25” hose. Its size make it easy to maneuver in tight spots.
The upholstery tool – has a low profile, perfect for detailing.
Contains a high drain valve. Perfect for emptying into a standard bucket.
A compact design – Fits perfectly into a van, truck or storage area.

The HP90 Spyder™ also offers:

Durability – With a tough, roto-molded polyethylene material that resists rusting and denting.
Order the HP90 Spyder™ today, and see for yourself why this classic design sets the standard for all auto detailing extractors.
