Directions

For residential and commercial carpets always pre-test in inconspicuous locations.

Truck Mount Use: 20 ounces (2.5 cups) into 5 gallons of warm water until completely dissolved to make truck mount concentrate for use in chemical injection system. For stain-resistant carpet, set truck mount chemical injection system for 2 gallons per hour. For commercial and non-stain resistant carpet, set truck mount chemical injection for 4 gallons per hour.

Portable Use: For stain-resistant carpet, mix 2 ounces per 5 gallons of hot water. For commercial and non-stain resistant carpet, mix 4 ounces per 5 gallons of hot water.
