Clean Storm 32080, 1/4in Barbed X 3/8in Barbed Brass Hose Reducing Splicer Mender

Model Number: 32080

Clean Storm 32080, 1/4in Barbed X 3/8in Barbed Brass Hose Reducing Splicer Mender

Manufacturer: Clean Storm

Clean Storm 32080 - 1/4" Barbed x 3/8" Barbed Brass Hose Reducing Splicer Mender

Description

The Clean Storm 32080 Hose Reducing Splicer Mender is a heavy-duty brass fitting engineered to seamlessly connect two hoses of different inner diameters. Designed to transition between a 1/4" ID hose and a 3/8" ID hose, this reducer splicer creates a tight, reliable inline connection for liquid or air transfer applications.

Crafted from solid brass for superior durability and corrosion resistance, the Clean Storm 32080 features precision-machined barbs that grip firmly into hose interiors. Whether you are repairing a damaged line, splicing hoses together, or adapting mismatched line sizes in carpet cleaning extractors, fuel systems, or fluid transfer setups, this brass splicer provides a leak-free solution built to last.

Features

- Reducing Hose Connection: Safely bridges lines between 1/4" ID and 3/8" ID hoses.
- Solid Brass Construction: Offers outstanding strength, rust resistance, and high corrosion resistance for reliable long-term service.
- Dual-Barb Design: Deep, sharp barb ridges ensure maximum grip and a tight seal when paired with hose clamps or crimped ferrules.
- Versatile Application: Ideal for use with air, water, fuel, oil, and fluid lines across carpet cleaning equipment, automotive systems, and marine applications.
- Easy Installation: Simply push into both hose ends and secure with standard hose clamps or ferrules for a quick repair.

Specifications

Brand
Clean Storm

Part Number / SKU
32080

Parts & Accessories > Brass, Plastic, Steel, Stainless Hydraulic Fittings > Brass Fitting > Splicer Barbed X Barbed > Clean Storm 32080, 1/4in Barbed X 3/8in Barbed Brass Hose Reducing Splicer Mender

Clean Storm 32080, 1/4in Barbed X 3/8in Barbed Brass Hose Reducing Splicer Mender

Fitting Type
Hose Barb Reducing Splicer / Mender

Connection Size 1
1/4" Hose Barb (1/4" Hose ID)

Connection Size 2
3/8" Hose Barb (3/8" Hose ID)

Material
Solid Brass

Maximum Operating Pressure
150 PSI

Temperature Range
-40°F to 160°F (-40°C to 71°C)

Compatibility
Use with Hose Clamps, Pinch Clamps, or Crimped Ferrules

Shape
Straight / Inline
