Clean Storm 1405-0402, Hydraulic Adapter Fitting, 1/4" FIP x 1/8" FIP, Steel Swivel, Non-Live

Description

The Clean Storm 1405-0402 Steel Swivel Hydraulic Adapter Fitting is a high-strength, precision-engineered component designed to connect hydraulic lines and high-pressure hose assemblies. Featuring a 1/4" Female Iron Pipe (FIP) connection on one end and a 1/8" Female Iron Pipe (FIP) connection on the other, this heavy-duty adapter provides a reliable, leak-free transition between different pipe thread sizes.

Constructed from durable steel, this non-live swivel fitting simplifies installation by allowing alignment without twisting the hose. It is built to withstand high operating pressures and harsh conditions, making it an ideal choice for commercial cleaning equipment, pressure washers, and fluid transfer systems.

Features

- Dual Threaded Adapter: Reduces sizes seamlessly between 1/4" FIP and 1/8" FIP connections.
- Non-Live Swivel Design: Facilitates easy alignment and strain-free installation without spinning under pressure.
- Heavy-Duty Steel Construction: Offers high tensile strength, exceptional durability, and long service life.
- Leak-Free Seal: Precision threads ensure a secure, tight seal under high-pressure conditions.
- Versatile Application: Suitable for hydraulic equipment, pressure washing machinery, and industrial fluid applications.
