Model Number: 86-2200-H

Sandia 86-2200-H 6 Gallon 200 psi HEATED Dual 2 Stage Vacs Machine Only Freight Included

Manufacturer: Sandia Plastic

Color NOT Guaranteed Blue, Black, Or Grey

This is an Auto Detail Cleaning Monster!

Clean over 50% faster than other auto detail machines!

Up to 100% more suction!

100% more pressure!

100% more Heat!

Zero overspray and splashing during the cleaning stroke.

Easier to plug in (no more electrical breakers problems)!

Cleans car carpet and seats both directions! How is this possible?

More Vacuum! Most auto detail extractors use a single 4.2" wide 2 stage vacuum motor, some even uses a 5.7" wide two stage vacuum motor, even others offer a single 3 stage 5.7" diameter vacuum motor. This machine is 4 stages of 5.7" vacuum. On average this is 100% more vacuum!

More Pressure! Most auto detail machines use a 55psi or even 100 psi to 120 psi water pump. Pump pressure is a form of agitation and speed in which you can pass the hand tool over the fabric and get it clean! This machine is 200 psi! Over 100% faster cleaning strokes!

More Heat! Did you know that most auto detail machines have 1000 watt heaters in them. Some might offer up to 1200 watts of heat. This machine does not have one heater in it, rather it has two. Two 1000 watt heaters in it back to back. After the water leaves the first heater it goes in the second heater. Double heat! Smoke that dirt right out of the fabric!

Zero Over-spray! Have you ever cleaned with a wand and had the spray splash to both the left and right side of the tool. This is like cleaning up the dirt in the middle but making two more messes, one on each side! Not this machine. Internal spray technology allows the water spray and the suction spray to be in the same cleaning chamber. It is impossible to have any over-spray at all. You can clean both directions too. Just squeeze the trigger and clean both up and back!

No more tripping breakers! Most auto detail machines take a 20 amp breaker to operate. I have many customers not realize that their shop only has 15 amp outlets in the walls. They order a traditional auto detail machine and then can never even use the heater because when they turn the heater on it trips the circuit breaker. This is because other manufacturers have everything squeezed onto one power cord. The pump the vacuum and the heat stressing the one outlet. This machine divides the power to two cords. Now you only need 15 amp outlets to operate. This machine plugs in everywhere! No more need to re-wire the shop.

>

Once you clean with this machine you will wonder how you ever cleaning with any other machine! This perfect design  
Optional:

-Clean Storm Hose Set 15 ft X 1-1/2 in Vacuum with 1/4in 3000psi  
Solution w/ QD installed 8500

PMF Internal Spray 3.5" Wide 1.5"Pipe 500psi Plastic Clear Head  
Stainless Steel Lips With Filter and Male QD Wand Package

Shazaam SBM230 Kryptonium 1 Gallon High ph Degreaser
