PCS Hydro-Shark Moisture and Urine Sensor Meter V 02 17 06 Replacement Tips Only (pair) 50_5022

Manufacturer: Steambrite MFG

Hydro Shark Moisture Sensor H-Shark replacement tips only

When it comes to moisture detectors, nothing out-performs the Shark. This unit delivers an ocean of performance despite its minnow of a pricetag. The Shark has an unsinkable moisture notification system that you must see to appreciate!

Confused by too much equipment on the market and hungry for a tool that never quits?
Detects both moisture under carpet and old pet urine and body fluids.
Check out the toughest marine predator on the market:The Hydro-Shark. This heavy-duty moisture sensor is so tough, engineers repeatedly ran it over with an SUV and failed to make a dent.
The competition? Their sensor flattened faster than a beer can!
A tough exterior is only the beginning of the story: the moment the Shark detects moisture in carpet, drywall and wood (even if it is trapped in urine), a bio-hazard light flashes and a beep sounds.
This state-of-the-art tool is crafted of stainless steel with a no-slip rubber grip and convenient battery portal.
Never wade into uncharted waters without teeth! In an ocean of choices, go for the moisture sensor you can count on to deliver results.

Locates the oldest pet urine. Even after 5 years of being on the carpet.
