Model Number: G008

Mytee G008 Nylon Piglet Lint Filter Inserts 25 pack

Manufacturer: Mytee Products

Mytee G008 Nylon Piglet Filters Pack of 25

Description

Here's the perfect compliment to any hose mount lint filter. The hose mount lint filter traps debris before it reaches the extractor's motor, preventing down time and costly repairs. Nylon Filters line the stainless pull out screen, adding even more protection against debris.

Nylon Filters can also be used with extractors. Simply feed the filter through the vacuum port, then fold the end of the filter over the port. Attach your hose as you normally would.

Features

- Each pack contains 25 filters
- Catches loose debris to prevent damage to vacuum motor
- Makes lint filters easier to clean (just remove, turn inside-out, rinse off and reuse)
- Makes the lint filter stainless steel screen even more effective in protecting the extractor's motor
- Simple to install, replace and are reusable.
- Fit all freestanding hose mount Lint filters, and on-board Flood extractor models.
- Can also be used in pool filters.

So order Nylon Filters for extra protection. It's an offer you can't refuse!

(Stainless cage not included)

Video

Secondary use for dry vacuuming with options below:

1. is they can be placed over the ball and cage float system protecting the vacuum motors direct inside the waste tank.
2. Use a larger draw string link bag on in PVC water in elbow inside the waste tank

Steambrite Supply

HydraMaster: Truck Mount Filter Bag for Waste Tanks

3. Clip on the DustDowner on the front of the machine

DUSTDOWNER DRY VAC MISTER 1-1/2"

4. We can manufacture a solution hose Tee fitting with a ball valve system that connects to your high pressure water out and connects to the AH18 Dustdowner above so when you are going to dry vacuum, just a quick turn of the ball valve to the "ON" position you can dry vacuum. Please supply the distance between the out bound solution QD and the vacuum inlet barbed fitting.
