Model Number: ANTV5H

Hydrotek ANTV5H Hydro Twister Vac 24in Rotary Spinner Surface Cleaner Vacuum Air Recovery Water Pick up

Manufacturer: Hydrotek

Hydrotek ANTV5H - Vacuum Surface Cleaner 24" Wide

FEATURES:

Use with your existing pressure washer and vacuum system

Up to 4000 psi

Up to 6 gpm

Cold - 200°F

Adjustable casters height

Stainless steel deck and handle

Large 30" inch deck with 24.5" cleaning path (24" arm)

Vacuum hose off to side to stay out of the operators way

Vacuum hose on the ground so you do not have to carry the weight of the vacuum hose.

Deck size 30"

Cleaning path 24"

Spray bar size 22"

ADVANTAGES:

Accomplish 3 tasks all at once:

Wash

Rinse

Recover the dirty water

Large 24" cleaning path allows for cleaning over 18,000 sq. ft. per hour

Stainless Steel deck and handle will not rust or corrode

New Vac Tube design allows for double the pickup hose to be attached

Easily adjust the height of the casters to fit the surface you need to clean

Hook up to a hot water pressure washer to clean even faster by cutting through grease and grime

BENEFITS:

Save time & wider cleaning path, improved suction allows for faster cleaning and less time spent containing the water

Save money & one accessory does the work of 3 others, and allows for less overhead

Earn more per job - clean faster and with fewer guys on each job

New Heavy Duty Twister Vac

The Twister Vac is a rotary surface cleaner with wash

>

water recovery capabilities. The new ANTV5H Twister Vac cleans a larger path than many other recovery surface cleaner accessories. Connect to a hot or cold pressure washer and a vacuum source to wash and recover the wash water in one step. Efficiently clean without splashing dirty water on clean areas/windows and eliminate the hassle of having to do a final rinse.

Features…

- New vacuum ring design doubles the length of vacuum hose. Unique geometric shaped deck with a brush skirt reduces drag and keeps the deck from "sucking" to the ground.

- Large "cleaning/vacuum path to clean 18,000 sq. ft. per hour

- Pressure ratings up to 4000psi @ 5.5gpm – includes qty 2) #2.7 nozzles, other nozzle sizes

available for different pressures and flows, up to 6gpm

Corrosion and rust resistant stainless construction is made to last

Use hot water, up to 200°, for degreasing factory floors, drivethru areas, garages, and more

Requires a "vacuum hose, power washer, and vacuum (minimum 104cfm/91" lift for 25" of vacuum hose)
