Foster K6-4020, Fungicidal Protective Coating, for Ducts, 5 gal. Pail

Steambrite Supply

Foster K6-4020, Fungicidal Protective Coating, for Ducts, 5 gal. Pail

Model Number: K6-4020

Foster K6-4020, Fungicidal Protective Coating, for Ducts, 5 gal. Pail

Manufacturer: Abatement Technologies

Restore and Protect Structures from Mold, Mildew and Bacteria Growth Caused by Water Damage
Foster Disinfectant and Fungicidal Protective Coatings help restore and protect structures from mold, mildew and bacteria growth resulting from flood and natural disasters. Foster products are preferred by contractors and specified by industrial hygienists because of their long term, proven performance and reliability.

Seal and Protect
Foster 40-20™ Fungicidal Protective Coating for HVAC Duct Systems
Foster 40-20 is an EPA registered, antimicrobial coating for HVAC duct systems. Foster 40-20 is formulated to effectively prevent the spread of mold and odor causing bacteria on its surface in areas such as walls, ceilings, pipes and interior/exterior surfaces of HVAC duct systems. Its tough elastic, decorative finish is resistant to most industrial chemicals and it is ultra-flexible to allow for movement without splitting, which prevents lodging places for bacteria.
Part #: K6-4020. 5 gal.
