

Model Number: NCHP243012S910

Clean Storm NCHP243012S910 HEPA Filter 24in X 30in x 12in 99.97 pct. Particle Board Box Standard Capacity

Manufacturer: Clean Storm

Clean Storm NCHP243012S910 HEPA Filter 24in X 30in x 12in 99.97 pct. Particle Board Box Standard Capacity  
Filters are Built to order!

Please allow 30 days for build.

Orders are noncancelable and non refundable.

Description

NC Filtration HEPA Filters are standardized using 5/8" Prime; particle board framing. Each frame is glued and stapled to provide a rigid enclosure for the media pack.

Metal frames fabricated of galvanized steel, aluminum or stainless steel are available for use where corrosion or temperature limits exceed those applicable for particle board frames.

Features

Construction

- Media: Each filter is constructed from one continuous sheet of high strength waterproof glass microfiber paper, sealed to the frame on all four edges.
- Separators: Media separators are corrugated aluminum. A separator is placed between each pleat of media to prevent the pleats from touching. This allows the air to pass through with minimum of resistance.
- Adhesive Sealants: Standard sealants utilized are fire retardant rubber based adhesive and urethane sealant. These sealants are applied as a fluid and solidifies to provide a positive seal between the media pack and frame.
- Gaskets: All standard HEPA filters are equipped with a closed cell neoprene gasket. Placement is on the Downstream side of the filter unless otherwise specified. If a gasket is required on both sides of the filter it must be indicated in the purchase order.

Specification

95% to 99.97% Efficiencies

Corrugated aluminum media separators

Standard (18 pleats/ft.) or High-Capacity (36 pleats/ft.)

Sealed internally with Urethane Sealant 5/8" Prime; & 1 1/2" Prime; Depths available in all sizes.

99.97% @ 0.3 Micron DOP tested HEPA Filter

Hepa filter 24" X 30" x 12" 99.97%

Actual size is 23-3/8" X 29-3/8" X 11-1/2"

Air flow can be filtered in any direction.

Includes 1/8" thick gasket around the perimeter on exhaust side of the filter.
