Clean Storm 18246H910, HEPA Filter 18in X 24in x 6in 99.97 pct. Particle Board Box, H182406-99, F1952

Model Number: 18246H910

Clean Storm 18246H910, HEPA Filter 18in X 24in x 6in 99.97 pct. Particle Board Box, H182406-99, F1952

Manufacturer: Clean Storm

Clean Storm 18246H910, HEPA Filter 18in X 24in x 6in 99.97 pct. Particle Board Box
Filters are Built to order!
Please allow 30 days for build.
Orders are non cancelable and non refundable.
Description
Clean Storm 18246H910 18 in x 24 in x 6 in HEPA Filter delivers 99.97% efficiency at 0.3 microns for high-capacity air filtration in restoration and remediation equipment. Built to order with a durable 5/8-inch particle board frame, corrugated aluminum separators, and internal urethane sealing.
Includes 1/8" thick gasket around the perimeter on exhaust side of the filter.

HEPA filters are standardized using 5/8" particle board framing. Each frame is glued and stapled to provide a rigid enclosure for media pack.
Features

- 99.97% efficiency rating tested via DOP at 0.3 micron particle size.
- High-capacity design featuring 36 pleats per foot for maximum airflow and particulate capture.
- Corrugated aluminum media separators maintain uniform pleat spacing and structural stability.
- Internal urethane sealant prevents air bypass and ensures airtight media encapsulation.
- Includes 1/8-inch thick perimeter gasket on the exhaust side for secure, leak-free installation.

Applications

- Air Care TurboJet 4200B Air Scrubber [CE4200B]
- Air Care 2012 and Air Care 2012V negative air machines
- Commercial restoration and mold remediation negative air filtration systems
- Abatement and dust containment setups requiring certified HEPA performance

Specifications

Brand	Clean Storm

Clean Storm 18246H910, HEPA Filter 18in X 24in x 6in 99.97 pct. Particle Board Box, H182406-99, F1952

Model / Part Number
18246H910

Nominal Dimensions
18 in x 24 in x 6 in

Actual Dimensions
17-3/8 in x 23-3/8 in x 5-1/2 in

Filtration Efficiency
99.97% at 0.3 Micron

Frame Material
5/8 in Particle Board (Glued and Stapled)

Media Separators
Corrugated Aluminum

Pleat Count
High-Capacity (36 Pleats per Foot)

Sealant
Urethane Sealant

Gasket
1/8 in Thick Perimeter Gasket on Exhaust Side

Air Flow Direction
Bi-directional (Can be filtered in any direction)

Lead Time
Built to Order (Allow 30 days for build)

Cross-Reference SKUs

Can be used in
Air Care: TurboJet 4200B Air Scrubber [CE4200B]
Air Care 2012
Air Care 2012V
Tips and Additional Information
Inspect the filter housing and gasket seating surfaces prior to installation to ensure an airtight seal. Because these filters are built to order, please allow 30 days for production. Note that these custom-built units are non-cancelable and non-refundable. Verify actual dimensions (17-3/8 in x 23-3/8 in x 5-1/2 in) against your equipment housing to ensure a proper fit.
Frequently Asked Questions
Q: What are the actual physical dimensions of this filter?
A: While nominal size is 18 in x 24 in x 6 in, the actual manufacturing dimensions are 17-3/8 in x 23-3/8 in x 5-1/2 in to fit standard equipment slots properly.
Q: Can airflow pass through this filter in either direction?
A: Yes, air flow can be filtered in any direction, though the 1/8-inch gasket is positioned on the exhaust side for proper sealing.
Q: What is the production lead time and return policy?
A: These filters are built to order with a 30-day build time. Due to custom manufacturing, all orders are strictly non-cancelable and non-refundable.
Warranty & Safety Information
Covered against manufacturer defects in materials and workmanship upon delivery. Warranty coverage is voided if the filter is exposed to excessive moisture that degrades the particle board frame, subjected to airflow rates exceeding equipment
