HydroForce AT106 ETes Snout Adapter - 4 x 4in 1643-0201

Model Number: AT106

HydroForce AT106 ETes Snout Adapter - 4 x 4in 1643-0201

Manufacturer: HydroForce

HydroForce AT106 ETes Snout Adapter - 4 x 4in
1643-0201

The new Snout Adapter is now available for the TES and E-TES High Speed Structural Drying Systems. The Snout Adaptor allows you to fine tune your focused heat to the exact areas you need to dry. The Snout Adapter fits easily over the front of the TES TEX box or the E-TES 120 or 240 unit.

The snout adaptor allows the restorer to utilize the 4 inch high temperature flex ducts to distribute heat to multiple surfaces all at the same time.

The Snout Adapter is great for directing heat in drying cabinets, attics, or any other hard to reach areas. The kit includes one snout adapter, two 25' high temperature flex ducts, two snout covers, a bungee cord, and four vent clamps.
