Model Number: 20160625

DriStorm Goliath Heavy Duty Flood Pumper 26gal 4/2 Stage Vacs 30Amp Pressure Washer Vacuum Recovery Package 20160625

Manufacturer: Clean Storm

Goliath Quad 2 Stage 30 amp Flood Water Extraction and Pressure Washer Vacuum Recover Machine

Package advantages:

- Can easily be installed on any trailer tongue with two pieces of angle iron. (wheels removed)
- Operates 200 ft of hose.
- Strong enough for standard 21-24" vacuum surface spinners with vacuum recovery that require vacuum hose pick up!
- Easily converts pressure washing rigs into multi-surface cleaning rigs to clean: air ducts, carpet cleaning, and tile/grout cleaning machines.
- When compared to some other electric vacuum recovery systems this 30 amp vacuum unit is 300% stronger (Example: Hydrotek RPV30E1 10 amp vacuum)
 - Save over purchasing individually.
 - Vacuum is strong enough to run optional cleaning tools to clean: hazmat work, carpet, rugs, tile, mattresses, air ducts, flood pumping, water extraction, and more...

Package includes:

BE6500 watt Electrical Generator BE-6500ERUSC

>

-DriStorm Goliath Flood Pumper 26gal Four 2 Stage Vacs and
Pressure Washer Recovery 120v with Lint Filtration SBM-GO-A SBMGOA
Includes:
Dual 12-3 power cord
One AC10 Lint filter system
Dual AH44 2" vacuum hose cuffs to install your AC10 filter near the
vacuum system

Hose Vacuum Hose 100ft x 2.0in Double Lined Truckmount grade

>

Video below is this model made with quad two stage.

Goliath Plus
Quad Vac Flood pumper
The Industries Water Extraction Machine and Electric Pressure Washer Vacuum Recovery!
New Larger Waste Tank Size: 26 gallon (20" X 20" X 15")
Body Construction: Fiberglass box for durability,
Vacuum Motors: Four 2 stage vacuums (will operate over 200+ ft of 2" vacuum hose!)
Vacuum motors are configured: each pair is in series and then both pairs are in parallel for the best of both worlds of high cfm and high inches of lift.
New Larger Flat Lid

Automation: 30 GPM STAINLESS STEEL sump pump with water level sensor
(machines automatically dumps the dirty water as you clean for non stop production)
Draws only 3.5 amps.

Features:

- Dual ball float/standpipe for increased air flow and vacuum performance.
- Water and vacuum tight hinged with gasketed reinforced lid.
- Dual 50 ft. 12-3 power cords

Dual Extension Power Cord 50 ft 12-3 115 volt AX33 860831 E530 M1394

- Circuit locator,
- 12" rear wheels stair climbing wheels.
- Front mounted GFI w/ waterproof cover.
- Built in Auto Defoamer with adjustment knob.

Factory Installed
B112 1/8" Fip Screwed Bonnet Needle Valve 122440

>

- Dual cam lock waste water discharge - Garden hose for cleans and 1-1/2" dump hose for floods (your choice)
- Machine will operate on either one or two power cords (see below)
-

Factory Installed

Clean Storm Fiberglass Vacuum Motor Manifold 20131023

Allows for steam and hot water vacuum recovery without the worry of traditional plastic manifold collapse.

- When the machine is operating on one power cord you have the option to run the vacuum motors in series or parallel.
- Made in the USA
-

Factory Installed

Clean Storm 30 GPM Stainless Steel Automatic Pump Out 12499 Mytee

C384

-
- Includes:
-

Factory Installed

Valterra: Gate Valve 1.5in Replacement Dump Valve H225 Drain Valve

>

Factory Installed
Carpet Cleaners: 2" Mip X 2" Barbed Truckmount vacuum hose connector
on front of machine.
Allows you to use either 2" or 1-1/2" ID vacuum hose (your choice)

FREE Dealer Provided
Hydro-Force: Truckmount Carpet Cleaning Hose Mount Lint Filter AC10
HydroFilter

Included at no extra charge

Used to remove rocks, grass, trash, hair, and carpet fibers from the water to
protect auto pump out system

Factory Installed Water Resistant Rocker Switches: 2 Position On/Off - 4
pinned with built in dust and water cover
5 installed on this machine
One switch for each vacuum motor and one for the auto dump pump
override.

Factory Installed Pair Locking Front 5 inch Caster

Keeps machine from rolling around during transport and on step driveways.

- Technical Specification

>

- Primary cord (18.5 amps) runs (2) vac motor in air series with ball float shutoff and sump pump. If a secondary circuit is not available, machine would perform on this cord. Wired with an in-line GFCI and cooling fan.
- Remaining three power cords (15 amp average) runs one each of the remaining (2) other vac motors in air series twin pair configuration.
- Twin 1-1/2" ball float high dirty water shutoff with lint filtration.
- One vacuum stand pipe with check valve will let you run one, two, three or all four vacuum motors depending on how much electricity is available on the job site. One cord per pair of vacuum motors.
- Single 2" vacuum intake.
- Garden hose cam lock adapter for carpet and tile cleaning discharge
- 1-1/2" cam lock adapter for flood restoration (seen in photo below) when discharge rates need to be over 10 gpm.
- (5) Green lighted splashproof rocker switches.
- Blue tank/Gray base. Lids can be white or black. (current color black) Note color and shade of machine is not guaranteed.
-

Factory Installed
Quad Max Vac 2 Stage 5.7 Inch High Performance Vacuum Motor
PO932STD

- Gallon of liquid defoamer can be set on top of extractor on jobs where you need to cut some suds. (auto dump systems only dump water and not bubbles)

OPTIONAL:

1. Add a booster port to the lid to add even more vacuum later on \$100

Unit Measurements:

- Handle height is 43-1/8". Machine dimensions" 43-1/8"H x 23"W x 30" L (we can make the machine handle shorter for smaller SUV's)
- Weight (assembled) = 106 lbs. w/out cords.

Can be ordered with no wheels and no handle for permanent installation on a tongue of a pressure washing trailer. Footprint is only 20" X 15"

Goliath Advantages:

1. 26 gallon recovery tank
2. Auto defoamer needle valve means non stop production.
3. 2" vac port will run either 2" or 1-1/2" vacuum hose.
4. The highest lift and highest CFM extractor on the market. Nothing comes close. This machine is impressive when it comes to suction. This machine will run longer

>

hose lengths and dry carpet better than any other electric machine that is operating on 2 power cords. 30 amp total vacuum system @ 120 volt = 3600 watts vacuum performance!

5. Will operate on one or two, 20 amp power cords. (one cord per pair of vacuum motors)
6. Dual port water pump out discharge. Toggle back and forth between automatic dumping out a garden hose (for cleaning jobs) or out a 1-1/2" vacuum hose (water extraction jobs), your choice.
7. Switch plate cover will keep your water resistant switch covers in place. Unlike some other brands the clear water protection cover can fall off once the machine gets old or if it gets knocked around.
8. Fiberglass body is not affected by steam vacuum recovery as plastic housing get soft.
9. Easily converts into an air duct cleaning machine, tile cleaning machine, carpet cleaning machine, auto detail extractor.
10. Designed to work perfectly with electric converters and run on 13 hp (389cc) generators and larger.

Owner's Manual

These results were achieved with an open vacuum tank

POWERFUL 30 GPM AUTO DUMP

This unit may be filled in Blue or Green. Color is NOT guaranteed!

Auto Defoamer with adjustment knob

QUAD 2 stage VACUUM MOTORS IN SERIES/PARALLEL
AS PER MANUFACTURER'S RECOMMENDATION, MOTORS ARE MOUNTED IN A WAY THE BALANCES THE VACUUM (lift) AND THE VOLUME (cfm), BY MOUNTING THE VACS IN SERIES PAIRS THEN THE PAIRS ARE MOUNTED IN PARALLEL. THIS BALANCES THE LIFT AND CFM, GIVING BETTER PERFORMANCE THAN HAVING ALL 4 MOTORS IN SERIES (high lift but nominal cfm) OR ALL 4 IN TANDEM (plenty cfm but wimpy vacuum). SO FAR ONLY STEAMBRITE MFG GIVES YOU THIS SUPERIOR DELIVERY SYSTEM FOR 4 VAC MOTORS.

>

Q&A:

Question: What is involved in switching between using one power cord to two cords, and then to use all four vacuum motors?

Answer: Nothing! We have a check valve installed on one of the vacuum stacks. This way if you are only using one power cord it shuts off the stack you are not using to prevent air from sucking backwards through the system. When you are using as a dual corded machine, you have the option to use in air series or air parallel by simply just turning on the two vacuum motors you want. Because each power cord will operate on 20 amp breakers.

Question: Does the machine include the bubble top lid or the flat lid?

Answer: The flat lid. The bubble top lid are some photos that carried over from the 20 gallon model. All the 26 gallon machines have flat lids with a twist and lock latch.

One Year Warranty Included.

Also available in 230 volts for \$350 extra + a one month lead time.
