PowrFlite PAS14G Predator 14in Battery Powered Scrubber

Manufacturer: Powr-Flite

Does not come with brush or pad driver. Be sure and order either or both as needed.
14" Battery Automatic Scrubber

Clean greener! Don’t just push dirt around with a dirty mop and cleaning solution – get the floors really clean with the compact floor scrubber that will pay for itself in savings in less than a year!

Clean floors more efficiently! Let’s face it – a mop and cleaning solution in a bucket starts out clean but quickly becomes soiled, spreading dirt and debris over the “clean” floor. The new, eco-friendly Predator 14 scrubber will capture the dirt and debris mops leave behind, allowing it to be totally removed from the floor space.

The Predator 14’s low moisture design includes an integrated parabolic squeegee system mounted just one inch behind the pad. Solution is contained and instantly recovered, even around 180° turns. Floors are left clean, dry and ready for use. The environment is cleaner and more sanitary!

Save time and money! The Predator 14 is compact, powerful, and versatile – perfect for small to medium sized areas and confined, constricted spaces. It cleans about 11,300 square feet in an hour with a 70 minute run time. You will save significantly in time and labor over using a mop and bucket.

• Operating noise level of 68 dB, meets LEED standards
• 70 minute run time for daily maintenance cleaning
• Includes maintenance free gel batteries and integrated onboard charger making it simple to re-charge at any location
• 250 RPM brush speed cleans the dirtiest floors
• Ergonomic 3-position handle makes it easy to clean under countertops and operator can adjust the handle to the perfect height minimizing fatigue and injuries
• Available to ship Now!

PowrFlite PAS14G Predator 14in Battery Powered Scrubber

Guaranteed Service: Powr-Flite has the most extensive company-owned distribution network of any floor care equipment manufacturer in the U.S. All orders placed by 1:00 PM (CST) ship same day!

Guaranteed Quality: We know you would not settle for less than the highest quality...and we would not either. Our machines are produced with the highest quality components; the same components used by the other top brands. Our skilled production technicians are highly experienced and our quality assurance standards are top notch. Each product is put through a rigorous testing procedure to make sure it meets our quality standards, and our extensive warranty stands as proof of our quality.

Guaranteed Savings: We guarantee savings on our equipment because we manufacture and sell direct. This business model keeps our overhead low, allowing us to pass the savings on to you! Our equipment prices provide what is clearly the best value in the industry, prices that are typically 20-30% below the competition! Whether you buy from us directly, online at our 24-hour website or from your local Powr-Flite distributor, our factory direct selling model guarantees you significant savings over the competition.
