Manufacturer: American Training Videos

American Training Videos Custodial Series 1004 Building Emergency and Evacuation Procedures
[AMT-1004]

Discusses emergency procedures applicable to all buildings and their occupants. This “must see” DVD can save a life through the education of the viewer to recognize the serious dangers of fires, earthquakes, floods and terrorist attacks. Topic include evacuation safety, fire response, tornado and hurricane emergency procedures, emergency evacuation plans, emergency response to chemical spills or leaks, suspicious packages, and what to include in an emergency supply list. This is a great DVD for everyone to see.
