WestPak 10-0587 Carpet Cleaning Wand Check Valve 1/8in B217 VeeJet Extension

Manufacturer: WestPak USA

WestPak 10-0587 Carpet Cleaning Wand Check Valve - 1/8" Male x Female Nozzle Extension

WestPak 10-0587 is a compact brass wand check valve / nozzle extension used on carpet cleaning wands, upholstery tools, and VeeJet-style spray nozzle assemblies. This valve helps reduce dripping after trigger release and provides a short 1/2" long extension between the wand spray tube and nozzle.

Product Highlights

- Part Number: WestPak 10-0587
- Also marketed as: Mytee B217
- Connection: 1/8" male x 1/8" female pipe thread
- Length: Approx. 1/2" long
- Use: Carpet cleaning wand nozzle check valve / VeeJet extension
- Material: Brass body

Common Uses

- Helps prevent wand or upholstery tool jets from dripping after the trigger is released
- Installs between the spray tube and 1/8" VeeJet-style spray nozzle
- Replacement part for carpet cleaning wands, detail tools, and extractor spray systems
- Useful when rebuilding or servicing wand spray assemblies

Compatibility Notes

This part is commonly cross-referenced with Mytee B217 and may be used on many carpet cleaning wand spray systems that accept a 1/8" male x 1/8" female nozzle extension check valve. Always compare thread size, length, and installation style before ordering.

Why Replace This Part?

A worn or clogged check valve can cause after-drip, uneven spray, weak spray pattern, or chemical/mineral buildup near the wand jet. Replacing the check valve is a low-cost way to restore better spray shutoff performance.

Installation Tip

Use thread sealant rated for hot water extraction equipment and do not overtighten small 1/8" brass fittings. After installation, test for leaks and proper spray pattern before returning the wand to service.
