Steel Eagle K01-2450, Primary Separation Vacuum Tank Filtration System

Model Number: K01-2450

Steel Eagle K01-2450, Primary Separation Vacuum Tank Filtration System

Manufacturer: Steel Eagle

Steel Eagle K01-2450, Primary Separation Vacuum Tank Filtration System

Description
This Steel Eagle Primary Separation Tank Filtration System is a recommended accessory for every Fury 2400 Series Vacuum Recovery System. The wash water is drawn by the vacuum to this primary separation tank which then filters out the larger particles present in the was water such as sand, gravel, paper and leaves.

Separation Tank Filtration System (K01-2450) Is a recommended accessory for every Fury 2400 System
