American Training Videos Food Service Series 1401
Cleaning Ovens, Grills and Fryers
[AMT-1401]

This video covers the important aspects for cleaning and maintaining ovens, grills, fryers and steam tables. This includes the equipment maintenance log, maintenance checks and professional and vital cleaning methods. Following the manufacturers suggestions means you'll get the best results, with the least hassles. It means trouble free use and optimum performance. And it may even mean that you have fun doing the job. This is a great video that explains how to perform all necessary cleaning, polishing and periodic maintenance operations. The on-camera host takes you through each step and creates a friendly, instructive atmosphere.
