Model Number: SOQ

Odoricide 210 Skunk Off Liquid Spray master Case (12-32 oz Bottles)

Manufacturer: Thornell Corp

Odoricide 210 Skunk Off Liquid Spray master Case
(12-32 oz Bottles)

SPRAY & SOAKER

Directions for Use on the Pet: Wipe off excess skunk spray. Saturate area of direct hit with Skunk-Off. Work in thoroughly, rinse and then let dry. If odor persists, continue to reapply as necessary.

Directions for Use in the Home: Skunk-Off can be safely applied to carpets, upholstery, clothing or bedding. Use Skunk-Off liquid in laundry at a rate of 2-4 ounces per regular load. Skunk-Off may also be applied in larger areas by wet fogging with a dilution of 1:1 with water.

Product Safety

All Thornell products are safe for use on any surface. As with any product, follow the label directions. Contains water, proprietary essential oil blend and preservatives.

Keep out of the reach of children. For external use only.

Cautions

Effectiveness decreased when using with Chlorine solutions. Always spot test for color fastness.

FAQs

Q: Is it an enzyme?

A: No. Odoricide is not an enzyme. Odoricide uses a chemistry called Zwaademaker Conjugates. This process bonds, absorbs and then counteracts the odor molecules ability to emit a vapor. The result is complete elimination of the odor.

Q: Does it work on cat urine?

A: Yes. Odoricide will eliminate the odors caused by pet urine. Simply identify the source and make sure Odoricide is used in a manner that will ensure contact with the odor molecule.

Q: Can you use it on oriental or wool rugs?

A: Yes. Odoricide is safe for use on rugs and carpets of all kinds. Rugs need to be treated front and back. A dip tank is best if available.

Q: Does it leave a residue?

A: No. Odoricide is a water based product thus no residue is left behind.

Q: Does it attract dirt?

A: No. Odoricide is non-ionic with a neutral Ph thus it does not attract dirt or debris after use.

Q: Will it hurt the finish on my floor?

A: No. Odoricide is a water based product and contains no caustic ingredients that will damage the floor surface.

Q: Do I need to extract it?

A: Once Odoricide is applied its best to leave it until you are certain it has penetrated deeply enough to come in contact with the odor source. As many of the problems areas are on wood or concrete flooring, this process may take a few minutes.

Odoricide needs to penetrate both of these hard surfaces to adequately reach the

>

odor molecule. Once you are certain the penetration process is complete, you can extract the excess or you can simply let it air dry. If you are cleaning in addition to deodorizing, you can remove the excess during your cleaning procedures.

Q: What's in it?

A: The actual formula is proprietary but in general terms Odorcide is made up of a blend of natural ingredients that are safe for use on any surface to include leather chairs and hard wood floors. It is always recommended that you spot test before applications and as with all chemicals please keep them out of children's reach.
