Harvard Chemical 702, Desert Mist Deodorant with Quat-Plus, 1 Gallon, UPC: 71197841340

Manufacturer: Harvard Chemical Research

Harvard Chemical 702 Desert Mist Deodorant with Quat-Plus – 1 Gallon
Professional water-based odor neutralizer with a pleasant Desert Mist fragrance
Harvard Chemical 702 Desert Mist is a concentrated, water-soluble deodorizer formulated with essential oils, odor-neutralizing ingredients, and quaternary compounds. It helps neutralize objectionable odors while leaving behind a light, pleasant Desert Mist fragrance.
Use it as a direct deodorizing spray or add it to compatible carpet-cleaning, extraction, shampoo, or mopping solutions for additional odor control.
Sold individually: One 1-gallon bottle
Manufacturer part number: 702
Fragrance: Desert Mist
Manufacturer: Harvard Chemical Research
Features and Benefits

- Neutralizes odors rather than relying only on fragrance masking
- Fortified with quaternary compounds for enhanced odor-control performance
- Concentrated formula provides economical dilution rates
- Water-soluble formula
- Pleasant Desert Mist fragrance
- Non-staining when used according to label directions
- May be applied directly to odor sources
- May be added to compatible neutral-pH cleaning solutions
- Suitable for carpet cleaning, extraction, shampooing, mopping, and general deodorizing

Recommended Applications
Harvard Chemical Desert Mist may be used for odor-control applications in areas such as:

- Carpets and rugs
- Upholstery and other water-cleanable fabrics
- Homes, offices, hotels, and rental properties
- Schools and institutional facilities
- Restrooms and locker rooms
- Pet-odor cleanup areas
- Automotive interiors
- Carpet-cleaning and restoration projects
- Hard-surface mopping solutions

Always test delicate fabrics, dyes, and surfaces in an inconspicuous location before

Harvard Chemical 702, Desert Mist Deodorant with Quat-Plus, 1 Gallon, UPC: 71197841340

general application.
Mixing and Dilution Directions

Application	Recommended Dilution
Light odor deodorizing	6 ounces per gallon of water, approximately 1:21
Heavy odor deodorizing	12 ounces per gallon of water, approximately 1:11
Cleaning-solution additive	4 to 6 ounces per gallon of ready-to-use cleaning solution

Direct Deodorizing
Dilute 6 to 12 ounces of product per gallon of water. Apply as a fine mist or spray directly and thoroughly to the source of the odor. Whenever possible, first remove the urine, feces, food residue, smoke residue, decaying material, or other organic contamination causing the odor.
Ventilate the treated area thoroughly after application.
Cleaning-Solution Additive
Add 4 to 6 ounces per gallon of water or prepared cleaning solution. The product may be used in compatible carpet shampoo, carpet extraction, and mopping solutions without significantly reducing the cleaner’s detergency.
Compatibility warning: Do not mix this product with bleach, oxidizers, anionic detergents, or other chemicals unless compatibility has been confirmed by the chemical manufacturer. Quaternary compounds may be deactivated by incompatible chemistry.

Frequently Asked Questions
Does this product only cover odors with perfume?
No. It combines fragrance with odor-neutralizing ingredients and quaternary compounds to help control the source of objectionable odors rather than functioning only as a fragrance spray.
Can it be added to a carpet extractor?
It may be added to compatible carpet-cleaning or extraction solutions at approximately 4 to 6 ounces per gallon. Confirm compatibility with the other chemical

Steambrite Supply

being used and follow the equipment manufacturer’s instructions.
Can it be sprayed directly onto carpet?
Yes, when the carpet or fabric is water-cleanable. Dilute according to the odor severity, apply a controlled mist, and test for colorfastness before treating the entire area. Avoid excessive overwetting.
Is this an enzyme treatment?
No. Harvard Chemical 702 is a deodorizer fortified with quaternary compounds. It is not the same as an enzyme-based urine or organic-waste digesting product.
Is this product a disinfectant or sanitizer?
This product should be sold and used as an odor-control deodorizer. Do not represent it as an EPA-registered disinfectant or sanitizer unless the container label displays an applicable EPA registration number and expressly provides those claims and directions.
Should the odor source be cleaned first?
Yes. The best results are obtained by removing as much odor-causing contamination as possible before applying the deodorizer. Odor treatment should not replace proper cleaning and removal of contaminated material.
Safety Information

- Keep out of reach of children.
- Read the product label and Safety Data Sheet before use.
- Wear any personal protective equipment specified by the manufacturer.
- Do not ingest.
- Avoid contact with eyes and prolonged skin contact.
- Provide adequate ventilation during and after application.
- Do not mix with bleach or other chemicals unless specifically authorized by the manufacturer.

Product specifications, packaging, fragrance intensity, label design, and formulation are subject to change without notice. Display images are for general reference. Orders are fulfilled according to the manufacturer part number shown in this listing. Always follow the directions and precautions printed on the container received.

Harvard Chemical Desert Mist Deodorant with Quat-Plus Gallon 702

Unique combinations of water soluble essential oils, odor neutralizers, and quaternary compounds that work quickly to eliminate foul odors and subdue odor causing bacteria and organisms. Safe for use wherever complete deodorization is necessary or as a power booster to any cleaning solution.
Fortified with quaternary compounds
Neutralizes odor, not just a masking agent
