Harvard Chemical Work Horse Acrylic Floor Finish 5 Gallons 5149 GTIN 711978405123

Manufacturer: Harvard Chemical Research

Harvard Chemical Work Horse Acrylic Floor Finish 5 Gallons 5149

Description

All acrylic copolymers metal cross-linked to resist the scuffing of floors. It is user friendly, fast laying, quick drying, and its initial gloss is excellent for use in schools, hospitals, or other high traffic areas where high or low speed buffing without powdering is desired. Synthetic detergents and emulsifiers have little effect on this product's gloss and durability. Surfaces coated with this finish will shine even after repeated abuse. Damp mopping and cleaning as well as the removal of greasy soils are a breeze when done over Work Horse coatings. A wide range of flexibility allows this product to be used on any surface not harmed by water. This floor finish contains cross metal linked copolymers in an opaque emulsion. It is low foaming and will retain a wet look. It dries clear, without streaking or cracking and is highly resistant to detergents and scratches.
Features and Benefits

- User Friendly
- Low or high speed buffing
- Non-corrosive, nontoxic
- Resists scuffing and harsh detergents
