Model Number: M70G

Pumptec M8235 Motor With Base (Replaces M70, M35, and M35-8) Kaivac PM217AM No Rectifier Needed [M70G]

Manufacturer: Pumptec

Motor With Base / no pump head

For Pumptec Series 112V and 114T Pump Heads
Motor, 1.5 amps, 120 VAC, 7lbs
Replaces the M70, M35, and M35-8 Motors

The original M35 and M35-8 motors did not need or require the rectifier. The M70 does require rectifier. This latest version M8235 no longer needs a rectifier

Please consider purchasing a cam bearing too as the originals will be hard to remove.
