8685-5000A

Shipping Weight
50.00 lb.

There are two primary ways to store coins in a self-serve environment; either inside the equipment in a coin box or in a vault that is installed beneath the meter to collect coins. Since vaults are cemented in on all sides they are very difficult for thieves to break into. JE Adams provides the "threaded nipple and vault tube cover for most units (except air/vacs). This form is designed to help you create a vault system for vacuums and can be repeatedly used.

Dimensions: 20 x 24 x 30

Also see our vault assembly form which holds \$550 in quarters. (Item #8685-3100A-2, 8685-3100A-3, 8685-3100A-4)

For air machines use Item #8685-4000A

Also see our vault assembly form which holds \$550 in quarters. (Item #8685-3100A or 8685-3100A-1)
