Manufacturer: BE Pressure Supply

BE Pressure 85.508.003 Champion Power 48036 L14-30P X Four 5-20R Generator Power Cord Adapter Quad Tap
Champion Power Equipment (48036) Generator Power Extension Cord, 25 ft. 30A 125/250V up to 7500 Watts (L14-30P to four 5-20R)

The Champion Power Equipment 48036 25 ft. 30A 125/250V Fan-Style Generator Power Cord is designed for quick, dependable, and convenient use of power where and how you need it. It will change your non-standard locking outlet into something acceptable for everyday use, powering items during an emergency or getting power to your tools in remote locations. The cord converts (1) 30A locking plug (L14-30P) to (4) 20A household outlets (5-20R) in a box-style configuration. Outlet dust covers included to keep outlets clean and clear when not being used. The high capacity 10 gauge wire is rated for use with 125/250V and generators up to 7500 watts. The cord features durable insulation rated for outdoor use and allows you to you run a generator from a safe distance keeping clear of noise and hazardous exhaust. It is also heat and cold resistant to remain flexible in extreme temperatures. Champion has years of experience providing dependable and durable power equipment designed and engineered in the US for the North American and world markets. Champion products are the standard of performance excellence – for work, for play, for home. We make the power that makes your life easier. The Champion 48036 25 ft. 30A 125/250V Generator Power Cord comes with a 1 year limited warranty. Champion demands excellence from their dedicated technicians and service network ensuring that you will receive world-class service and response wherever and whenever you need it.

Convert 30A locking outlet to (4) 20A household outlets with dust covers for use with generators up to 7500 Watts

Outdoor Use – Service grade, abrasion and weather resistant insulation. May not work with all generator models; please check to make sure your generator has a 4 prong outlet before ordering

Flexible – Cold and heat resistant 10 gauge wire rated for 125/250V use
Increased Safety – Extend your power up to 25 ft. away from hazardous generator exhaust
