Description

The Clean Storm 55036 is a high-durability hydraulic adapter designed to provide a secure, leak-free 45-degree angle transition in fluid transfer and pressure washing systems. Constructed from high-strength steel, this fitting connects a 3/8" Male Pipe (MIP) to a 3/8" Female Pipe (FIP), allowing for smooth fluid routing in tight or awkward spaces while reducing line strain and preventing hose kinks. Ideal for industrial, hydraulic, and high-pressure washing applications.

Features

- 45-Degree Elbow Design: Ensures optimal fluid routing in compact equipment setups, minimizing hose stress and bending.
- Precision Threading: Standardized 3/8" MIP to 3/8" FIP connection for tight, reliable seals under high operating pressure.
- Heavy-Duty Steel Construction: Built to withstand harsh working environments, high pressure, and demanding continuous operation.
- Versatile Application: Compatible with hydraulic systems, pressure washers, commercial cleaning equipment, and fluid transfer setups.
