Clean Storm 20171028, 6061-T6 Aluminum Diamond Tread Plate, 27-1/2" x 16-1/4" x 0.125"

Model Number: 20171028

Clean Storm 20171028, 6061-T6 Aluminum Diamond Tread Plate, 27-1/2" x 16-1/4" x 0.125"

Manufacturer: Clean Storm

Clean Storm 20171028, 6061-T6 Aluminum Diamond Tread Plate, 27-1/2" x 16-1/4" x 0.125"

Description

Upgrade your equipment, vehicle, or workspace with the high-grade Clean Storm 20171028 6061-T6 Aluminum Diamond Tread Plate. Widely recognized as classic "Diamondplate," this heavy-duty aluminum sheet features a raised lug pattern that delivers superior multi-directional traction and enhanced slip resistance in both wet and dry environments.

Manufactured from premium 6061-T6 structural aluminum alloy, this treadplate combines excellent strength-to-weight performance with exceptional corrosion resistance and high weldability. Precision-cut to 27-1/2 inches by 16-1/4 inches with a 0.125-inch (1/8") thickness, it provides robust defense against impact, wear, and structural fatigue. Whether utilized for truck bed protection, trailer flooring, step pads, ramp surfaces, or industrial floor paneling, this sheet offers long-lasting durability with a clean, professional finish.

Features

- Premium Structural Alloy: Constructed from 6061-T6 aluminum for high mechanical strength, yield resistance, and lightweight performance.
- Enhanced Safety & Traction: Raised diamond lug pattern provides reliable grip to minimize slips and falls on high-traffic or sloped surfaces.
- Corrosion & Weather Resistant: Naturally resists rust, chemical damage, and outdoor environmental wear for prolonged service life.
- Precision Dimensions: Pre-cut to 27-1/2" x 16-1/4" x 0.125" (1/8") thick for easy installation and fitment.
- Versatile Application Range: Ideal for trailer beds, toolboxes, vehicle running boards, loading docks, ramps, wall guards, and custom fabrication projects.
- Easy Workability: Highly suited for drilling, cutting, forming, and welding processes.

Specifications

Clean Storm 20171028, 6061-T6 Aluminum Diamond Tread Plate, 27-1/2" x 16-1/4" x 0.125"

Brand / Line
Clean Storm

Manufacturer SKU / Part Number
20171028

Material
Aluminum

Alloy / Temper
6061-T6

Pattern / Surface Style
Raised Diamond Tread (Diamondplate)

Length
27-1/2 inches (27.5 in)

Width
16-1/4 inches (16.25 in)

Thickness
0.125 inches (1/8 in / ~3.18 mm)

Finish
Mill Finish / Raised Tread

Corrosion Resistance
High

Weldability
Excellent
