Sirocco SC21V Vacuum Recovery Surface Spinner Stainless Steel 6035

21” Vacuuming Surface Cleaner
Perform pressure cleaning and wash water control simultaneously. The SC-21 surface cleaner with vacuum capability controls
overspray from pressure washing sidwalks, warehouse floors, tile surfaces and more. Attach to a wet/dry vacuum and have dry
floors in minutes. Triple vacuum intake tubes remove 90-98% of dirty wash water during cleaning process.
Eliminate overspray while pressure washing sidewalks, warehouse floors, tile surfaces and more. Sanitize with up to 240°F as fast as you can walk, and have dry floors in minutes! Crazy faster than mop and bucket on tile and grout jobs – great for compelling demos!

The MOST important reason to own one of these is “instant-capture”, but when you see your “quality of clean” improve too, don’t be surprised. The vacuum draws the water away from the spray area, removing the water-puddle, thus allowing better spray-Impact and a faster-spinning spray-bar. When the pressure washing and wash water control are done simultaneously, there’s NO rinsing required – and the net increase in work-speed quickly pays for the equipment!
