Electro Motor QM6600-027T-MP, replacement for 116471-00, 120V 2 Stage 5.7in

Model Number: QM6600-027T-MP

Electro Motor QM6600-027T-MP, replacement for 116471-00, 120V 2 Stage 5.7in

Manufacturer: Electro Motor

Electro Motor QM6600-027T-MP replacement for 116471-00 120V 2 Stage

120 Volt
2 Stage
116 CFM @ 2" Orfice
115 Sealed H20 Vacuum
473 Max Air Watts
12.1 Max Amps
6.83 Overall Height
BPP Type (Bypass Peripheral)

NOTE: Bypass Peripheral (BPP). This type utilizes two air flow systems. The first is for the working air that vacuums up the debris. This working, filtered air exhausts through the louvers in the motor fan housing. The second airflow system is strictly to cool the motor windings and uses a small fan dedicated for this purpose.
