Manufacturer: Husqvarna Equipment

Husqvarna 967663802 Pullman Ermator S36 Hepa Vacuum 20900057A 240V 14Amp
353Cfm Dust Collector 814228020050

240 volt 14 Amp

353 CFM

100 inch Vacuum System

Only 5 left at this price (June 2023) / ships from KS warehouse

Pre-Filter Cartridge is 40 Sq Ft of surface area

Hepa filter is 27 Sq ft of surface area.

198 lbs use weight.

Uses the CS8269 Plug as well as a L6-30 R for the grinder to run off this power

The CS8269 is designed to work with CS8264 Female and CS8265 Male cords

The S36 comes with about a 20' cord that is hardwired into the vacuum.

On the end of that cord is a CS8265 Male plug that would plug into your generator

S 36 is a very powerful single-phase HEPA dust extractor to match the grinding machines Husqvarna PG 530 (1-phase), PG 450, PG 400 and PG 280 as well as small to mid size scarifiers, grinders, shot blasters and handheld power tools.

This professional dust extractor is designed to meet strict demands.

Three large, commercial-grade vacuum motors provide plenty of power.

Equipped with three independently tested and certified HEPA H13 filters and a massive cone-shaped pre-filter with over 4.5 m² of media.

This results in superior dust collection, even of fine sanding and gypsum dust.

Features include Jet Pulse pre-filter cleaning, hour counter and vacuum meter for filter control.

The non-marking wheels are puncture free and lock at the front.

The Longopac® bag hose system ensures simple, dust-free bag changes

The original model had the 6-20P, then the L6-30P, now the CS8269 Plug
The idea was to use one giant 50 amp 240 volt power supply through the SC8269
and then you plug your L6-30 grinder into the outlet on the side of the vacuum.
Like a daisy chain system.
If you do not like that type of system, you can remove the factory plug and install the
following UL approved plugs.

Same vacuum and design, just different final plugs.

>

We have had some customers cut the factory plug off to install this option
Then they can use the optional power supply to plug in every where!
NEMA 6-20P Plug 20 amp 240 volt replacement end For 10 and 12 Awg Wire
8.709-656.0

Exact color or shade of the paint is subject to change without notice.
Ships in red (967753601) or orange (967663803) or even black.

Optional

No need to operate on a gasoline generator.
It is much easier to find two power cords drawing 14 amps each and than a
single 240 volt outlet.
Power Joiner Step Up Inverter Pressure Washer Converts Dual 20 amp 120
Volt outlets to 240 Volt 3 wire 15 amp L6-30R Reverse L6-30R
Plugs into every home, every business in the USA, Canada, and Mexico!
