Norton Abrasives 701846 41580 Blue Diamond Stone Maintenance Pads 20 Inch 800 Grit 4 Pack Case

Manufacturer: Norton Abrasives

Norton Abrasives 701846 41580 Blue Diamond Maintenance 20 Inch Pads 4 of 800 grit. 2 pads per case / 2 cases being shipped. Four Pack Case  
For: Marbles, Travertine, Limestone, Terrazzo, Granite, and Polished Concrete.  
Made with a robust interlocking web, these diamond maintenance pads are designed to deliver a consistent finish and withstand the harsh applications of concrete and natural stone floor maintenance. Can be used on all wet and dry machines.

The Orange coarse 400 grit diamond maintenance pad is perfect for cleaning and resurfacing concrete or natural stone floors. It works very well for floors that are very dirty with light surface scratches. The coarse grit pad should be followed by the medium pad as you re-surface the floor.

The Blue medium 800 grit pad is the second step to re-surfacing a natural stone or concrete floor following the coarse pad. It can also be the starting pad if the floor is slightly dirty with faint surface scratches.

The Yellow fine 1500 grit pad is the third step in the re-surfacing of a natural stone or concrete floor following the medium grit. Can also be used as a maintenance pad on most surfaces to keep the shine of the floor on a regular basis.

The Green very fine 3000 grit pad is the final step in the re-surfacing of a natural stone or concrete floor following the fine grit pad. It is also the recommended pad for on-going maintenance of the floor to keep the shine level of the floor on a regular basis.

Perfect for applications where only a few pads are needed to get the job done. Available in the two most popular sizes, the assorted packs contain one each of the grit types; coarse, medium, fine and very fine.

The majority of users just use water when using these pads or water with a small amount of neutral pH stone cleaner. Vacuum up the slurry between grits.

Cost less to purchase and use than other brands of diamond pad.  
Manufactured by Norton, largest abrasive manufacturer in the world!  
Faster return on investment (ROI.)
