What can this Fogger do ?

The new Vectorfog H200SF has been specially designed for the application of water and oil based solutions. With its unique Dual-Point™ inlet technology and a specially designed nozzle for enhanced dispersion, this versatile fogger will allow you to tackle any job, from plant protection and animal health disinfection, to the control of vector carriers and pests. As with the H200 model, this fogger features include a 6.5 litre stainless steel tank, a flow rate of 50 LPH and automatic start. This fogger has also been manufactured using high grade stainless steel, providing the user, with years of durability and performance.
