All sales final

What can this Fogger do ?

VectorFog™ Mini Foggers are powered by a standard propane or butane gas cartridge. The water or oil dilutant is heated and then the chemical is added at the last moment to create a fog or mist. Features include a 2.8 Litre tank, flow rate of 2 LPH and strap for portability.
The Mini fogger is ideal for fogging pesticides and disinfectants in locations with no access to electricity including patios, parks, silos, chicken coops and greenhouses.
