Question: What am I going to see in difference between the Mytee LTD5 VS the Mytee LTD3?

Answer: The Mytee LTD5LX does not have a heater in it but does use larger 3 stage vacuum motors. While both the LTD extractors use 3 stage vacuum motors, the LTD5LX vacuum motor are conical shaped on the bottom, pull more electricity and do a better job gulping the air which in turns means drier carpets. Advantage would come with using a power wand, like the Mytee T-Rex because with the larger 15" wide cleaning path the extra vacuum can be a real plus. The advantage of the LTD3 is the heater during us of lower flow applications. Example mattress cleaning, upholstery cleaning, auto detail cleaning, or even using a standard two jet wand. The heater will raise the temperature more than 18 degrees and will double the cleaning efficiency. When choosing between the two, you can also consider a the best of both worlds by purchasing the LTD5LX and add a separate heater on a third power cord with the purchase of an external heater. By removing the heater from under the hood the machine is lighter and easier to lift in and out of the service truck. By adding an external heater, you will double your cleaning performance without having to sacrifice smaller vacuum motors.

Question: What do most cleaners purchase? LTD3 or LTD5?

Steambrite Supply

Rotovac 360i Mytee LTD5LX 12gal 500psi 2/6.6 Vacs Auto Fill Auto Dump Carpet Upholstery Extractor Bundle No 20180915

Answer: LTD3 outsells the LTD5 because the heater is included.
