Kohler Engine SeaDog 426880-1 Polar Connector 2 wire GTIN: N/A

Model Number: 426880-1

Kohler Engine SeaDog 426880-1 Polar Connector 2 wire GTIN: N/A

Manufacturer: Kohler

Kohler Engine SeaDog 426880-1 Polar Connector 2 wire
Truckmount, boat, and RV Injection molded PVC two-prong plug and socket connector set is polarized to assure the proper mating of circuits reducing the chance of accidental reverse polarity.
Used on some branded truck mounts between the vacuum waste tank and the engine for the high level waste water engine shut off.
Color-coded 16-gauge 12” lead wire with bullet-type contact pins.
Weatherproof connectors are vibration and strain resistant.
Use of dielectric grease recommended to further protect circuit from salt spray, debris and corrosion.
Rated at 20 amps. 12-24VDC.
