Solderless Yellow Clear Nylon-insulated Brazed Barrel Butt Connectors 843005 10-12 awg

Model Number: 843005

Solderless Yellow Clear Nylon-insulated Brazed Barrel Butt Connectors 843005 10-12 awg

Manufacturer: Steambrite MFG

Solderless Yellow Clear Nylon-insulated Brazed Barrel Butt Connectors 843005 10-12 awg

Clear nylon-insulated brazed barrel butt connectors are terminals that can be crimped anywhere on the body and are used to connect a single wire. The brazed barrel construction allows crimping on any side of the barrel without opening the seam. Brazed butt splices can be used in vehicle and electrical applications.

Nylon insulation material is molded onto brazed seam barrel and is resistant to deformation.
Funnel entry is formed into inside of insulation to allow for easier wire insulation.
Brazed seam will not separate under pressure or operating stress.
Clear nylon allows for easy inspection of wire connection.
Industry standard color-coding indicates wire range.
Rated to 600 volts maximum, building wire; 1000 volts maximum, 105° C.
