Shark Sandblaster with Pot and Built in Probe and Carbide Nozzle 8.904-470.0

Manufacturer: Shark

Shark Sandblaster with Pot and Built in Probe and Carbide Nozzle 8.904-470.0

For the extra-tough cleaning jobs, wet-sandblasting is the dust-free solution. Landa’s sandblasters attach to a hot or cold water pressure washer and, using a venturi, mixes sand or other abrasive media with the high-pressure spray to create enough cleaning power to strip paint off concrete and barnacles from a ship’s hull. The sandblasting nozzle is made of tungsten carbide for long life.

Other features include:

- Quick-connect coupler for ease in attaching sand probe or pot
- Valve for metering the flow of the media
- Tubed pneumatic tires for easy maneuvering
- Rating: Super-duty
- Recommended Usage: Heavy
- Attaches to any cold-water unit with min volume of 4 GPM

Gross Weight
90 Lbs
