Clean Storm PB182-ND, 1A Thermal Circuit Breaker for International Ozone, TZ-1 CB-2 W28-XQ1A-1

Model Number: PB182-ND

Clean Storm PB182-ND, 1A Thermal Circuit Breaker for International Ozone, TZ-1 CB-2 W28-XQ1A-1

Manufacturer: Clean Storm

Clean Storm PB182-ND, 1A Thermal Circuit Breaker for International Ozone, TZ-1 CB-2 W28-XQ1A-1

Description

Ensure reliable electrical protection for your restoration equipment with the Clean Storm 1A Thermal Circuit Breaker. Specifically designed as a direct replacement component for International Ozone Total Zone TZ-1 systems, this push-to-reset thermal circuit breaker safeguards your equipment against overloads, minimizing downtime on the job site.

Product Features

- Compatible replacement part for International Ozone TZ-1 ozone generators.
- Reliable thermal trip mechanism with push-to-reset operation.
- Provides dependable 1A current protection at standard voltages.
- Labor-saving snap-in front panel mounting design.
- Extended button provides clear visual trip indication.
- Durable construction built to handle demanding commercial and restoration environments.

Product Specifications

Brand / Supplier
Clean Storm

Equipment Compatibility
International Ozone Total Zone TZ-1

Manufacturer Series
TE Connectivity / Potter & Brumfield W28 Series

Current Rating
1 Amp

Voltage Rating (AC)
250V AC

Parts & Accessories > Electrical Components > Clean Storm PB182-ND, 1A Thermal Circuit Breaker for International Ozone, TZ-1 CB-2 W28-XQ1A-1

Clean Storm PB182-ND, 1A Thermal Circuit Breaker for International Ozone, TZ-1 CB-2 W28-XQ1A-1

Voltage Rating (DC)
32V DC

Mounting Type
Panel Mount (Snap-In)

Actuator Type
Push-to-Reset Button

Circuit Breaker Type
Thermal

Number of Poles
1 Pole
