SOS StainOut Systems 865183000114 Smiley Paws Pet Urine Odor and Stain Remover 1 Gallon

Manufacturer: StainOut Systems

SOS StainOut Systems 865183000113: Smiley Paws Pet Urine, Odor, and Stain Remover 1 Gallon

Description:

Smiley Paws Pet Urine, Stain, and Odor Remover is a proprietary formula of plant based ingredients designed to remove these films and acids. The nano-sized particles called micelles represent the active ingredient in Smiley Paws. They cut through the carbon bonds in organic molecules and oil, grease and urine are broken down, suspended, and safely lifted from the carpet fibers. Effectively restores bounce to fibers and removes organic soil without damaging textiles.

Smiley Paws is unscented and will not trigger an allergic reaction. Smiley Paws is recommended on all types of carpet, synthetic and natural fiber carpets, rugs and water-cleanable upholstery. It effectively removes odors, spots and stains from textiles.

StainOut System's hypoallergenic all-in-one solution cleans and deodorizes urine, feces, vomit, blood, and odors from hard and soft surfaces in one easy step. This professional grade cleaning formula is safe and non-toxic to use around animals and children. This formula is not a soap- instead, Smiley Paws uses the power of bio-based nanotechnology and colloidal micelles to break down organic soil

Features:

Completely eliminates odors unlike other formulas that only mask odors with other scents

Professional-grade colloidal micelle nano-technology

Removes urine, feces, and vomit

Helps to prevent repeat marking

Safe to use around pets and kids

Made from plant-based ingredients

Professional strength eliminates tough odors

Hypoallergenic

All-Natural

Biodegradable

Environmentally friendly

Non-Toxic

Non-Flammable

Non-Hazardous

Non-Corrosive

Non-Caustic

Free Rinsing

Specification:

Appearance: Straw-Colored

Odor: Hazy

PH: 9-10

>

Specific Gravity 0.995-1.005

Instructions:

How to Perform Sub Surface Extraction

What type of wet/dry vacuum can I use with the S.O.S. Tool?

The S.O.S. Extraction Tool has been designed to fit any standard wet/dry vacuum with either 1.25", 1.5", and 2" hoses. If you're a professional, the tool can also be used with any truckmount or carpet extractor. The patented design of the S.O.S. Extraction Tool allows for targeted airflow to the pad beneath the carpet surface to suck up bacteria, odors, and liquids.

STEP 1: Saturate the affected areas with a professional grade strength Urine, Odor, and Stain remover. Allow the cleaning solution to seep deep into the carpet's backing, padding, and subfloor, in order to target the entire odor source. The solution will work to rehydrate, emulsify, and break down organic soil and pet urine solids in preparation for extraction and rinsing.

STEP 2: Finish by using the the SOS PRO with an extractor or truck mount to flush out the solution and contaminants from the carpet.
